Scenario #2: Speeder Bike Accident

Scenario: Your scout patrol just picked up Scouting for Foodstuffs donations and are returning to the drop off point in a landspeeder when the patrol observes a speeder bike accident in the area of Mandalore Road and Katan Highway.

The Mandalorian operator was unable to avoid striking storage crates and crashed. The operator is laying in the roadway with ***SEVERE*** bleeding above the left ankle. The blood is flowing rapidly and time is of the essence. The operator also has an oozing laceration just below the right elbow. The Mandalorian is unconscious.

The patrol has a first aid kit and a Scout has a comlink to call for help; however because of a poor comlink signal, a scout needs to interface with a relay tower about 2 blocks away.

Data Pad Information: 35 year old human Mandalorian male named Vaar Kishkar
