LEHIGH DISTRICT
2021 FIRST AID MEET

Scenario #3: CPR

Scenario: Your patrol is serving aboard the Corellian Corvette *Dragon* when it comes under attack from pirates. A proton torpedo strikes the hull causing a large explosion. One of the Jedi Knights gets thrown into space, but is able to use the force to get back into the ship. Once the Jedi Knight gets onto the ship, he collapses. You check on Jedi Knight Rian Crawler and find that he is unconscious, has no pulse, and is not breathing.

One patrol member reads his medical history tag. The scout finds out the following information:

1. Patient is Jedi Knight Rian Crawler and he is 65 years old male human.
2. He had a heart attack two years ago and underwent surgery by a 2-1B Medical Droid.
3. He takes aspirin daily.

One or Two Scouts will contact the Nebulon-B Medical Frigate *Redemption* for help.

The Patrol Leader must give a detailed step by step procedure of what the patrol is doing. CPR is to be demonstrated, but not actually performed.

Only the Patrol Leader and the Scouts that call for help may speak to the judge. The Patrol Leader may consult other patrol members before talking with judge.
