LEHIGH DISTRICT
2025 FIRST AID MEET
Scenario #3: The Shot

Scenario: It is the early morning of April 19, 1775, your patrol is cleaning up camp when you observe a young male running barefoot past your camp towards the Old North Bridge carrying his musket. You see the male trip and fall. He gets up, takes a few steps and then sits down. He grabs his right ankle in pain. Your patrol decides to go help the young man.

Upon arriving to the young man, you find that his name is Johnny Parker, he is 18 years old and is racing towards the Old North Bridge to meet up with fellow Minute Men. The male complains of right ankle pain, and you observe blood on his left palm. He states he is not allergic to any medications.

Your patrol does a quick assessment of injuries and finds that he has several minor cuts and a brush burn on his muddy left hand from falling. Johnny's right ankle is swollen, but is not broken, as there are no deformities, he can wiggle his toes, and he can put pressure on it.

Johnny tells you that he knows Dr. Jeremiah Washington is at his residence in Lexington. He says he is a member of the Sons of Liberty and will come and help. Shortly after Johnny gives the patrol the information, everyone hears a single shot, too which Johnny says, "that was so loud, I'm sure it was heard around the world".

PATROL NAME: _____ TROOP #_____

SCORE: _____ of out 100

LEHIGH DISTRICT
2025 FIRST AID MEET
Scenario #23: The Shot
