LEHIGH DISTRICT
2021 FIRST AID MEET

Scenario #1: Starfighter Crash

Scenario: While camping, your patrol is setting up moister vaporators on the planet Tatooine, you observe a space battle in the sky. You observe an Incom T-65B X-Wing crash about 5 miles southwest of Mos Eisley.

Upon investigating, your patrol finds the X-Wing has crash landed on sandy terrain. Jawas passing through the area pulled the pilot out of the X-Wing and started to pull the R2 droid out. The pilot is laying about 10 feet from the craft on his back. The pilot asks who you are.

The pilot tells you he lost power to his X-Wing when his engines were hit. He is complaining of right leg pain and head pain.

You observe a deformed lower right leg (indicating a break) and a 2" actively bleeding laceration above his left eye. There are obvious signs the pilot struck his head on the cockpit canopy, no glass is visible in the wound. The Jawas leave and do not tell anyone where they are going. The pilot informs you that the patrol can call the Medical Frigate *Comfort* for help from the nearby ridge.

Pilot Information: Dave Dreis; 32 year old human male
