LEHIGH DISTRICT
2023 FIRST AID MEET
Scenario #4: Burn

Scenario: While camping at Camp Invaders the patrol is observing the stars during their custom Star Hike. Suddenly one of the patrol members sees what appears to be a person suddenly ignite in flames. The patrol races over to a neighboring campsite, The Avengers Site and they find that a male burned himself while lighting a citronella torch. The male has partial thickness (2nd degree) burns to both palms of his hands and a ½" oozing laceration below the right elbow. The patient states he has no allergies.

On a nearby picnic table are two 5 gallon containers of drinking water, some clean dish rags, some dirty dishes, and a stove which is closed up.

The patient's condition starts to change as the patient is now pale, cold, has clammy skin, is breathing rapidly, and has a rapid heartbeat.

The male's friend, Reed Richards, who the patrol met earlier and thinks he is fantastic, states he already phoned for help and the camp's EMS crew is on the way. The patrol can hear the siren in the distance, but knows it will be at least 10 minutes until help arrives.

Reed Richards states that his friend's name is Jim Hammond and he has a history of playing with fire.

PATROL NAME: _____ TROOP #_____

SCORE: _____ out of 75
