LEHIGH DISTRICT 2026 FIRST AID MEET

Scenario #4: Oahu

Scenario: After treating the soldier and raising the flag at Fort McHenry, the patrol checks the Omni and finds that the light is green. Shortly after checking the Omni, the patrol flies through space and lands in the early morning on a dirt road above a city on a tropical island, the temperature is 73°F, with minimal cloud cover. The patrol hears the roar of airplanes overhead and the sound of explosions nearby. The Omni states that it is December 7, 1941.

A passing military truck stops, and the driver asks if the patrol is on its way to help in the city. The patrol leader says yes and the patrol hops in the truck. While driving towards the city, the patrol observes the harbor and sees several large ships ablaze.

The truck stops near a group of 10 soldiers that all appear to be wounded. The driver asks the patrol if they can help the soldiers while he continues with the much-needed ammunition that is in the truck.

The patrol must triage the 10 wounded soldiers prior to treatment.

The patrol must then answer 5 questions.

TRIAGE the 10 wounded soldiers as follows:

3 GREEN (Minor or walking wounded)

3 YELLOW (Moderate)

4 RED (Immediate)
