

PATROL NAME: _____ **TROOP #** _____
PATROL LEADER'S NAME: _____

NORTH VALLEY DISTRICT 2012 FIRST AID MEET

Broken Arm & Sprained Ankle Scenario

Scenario: While hiking along the Hammer River at Stanley State Park in early July, the patrol observes a severe rainstorm approaching. The patrol knows this area is prone to flash flooding, so the patrol decides to get to higher ground. Fire Station #10, which is manned 24 hours a day, is approximately 2 miles from where they are and the patrol can seek shelter there. There is no cell phone service in the area.

While going up a steep hill, a scout trips and falls to the bottom of the hill along the Hammer River.

The scout complains of severe left forearm pain. He stated he heard a snap. The patrol leader observes some swelling and the arm appears to be in an abnormal shape. The scout also complains of right ankle pain, but states the pain is only slight. The scout can put some pressure on the ankle; however, will not be able to walk unassisted.

The river is rising rapidly and the patrol only has 10 minutes before the water reaches their location.

Only the patrol leader and the Scout(s) going for help may speak to the judge.

ACTION TAKEN	POSSIBLE POINTS	POINTS EARNED
GOING FOR HELP	5 Max pts	
1. Patrol sends two Scouts to get help at Fire Station #10 (if only 1 scout goes, then 2 points)	5	
GETTING HELP	25 Max pts	
1. The Scout tells what happened	XXXXXXX	
a. Scout has possible left broken arm.	5	
b. Scout has a possible sprained ankle.	5	
2. The Scout explains what is being done	XXXXXXX	
a. Scout's arm is splinted	5	
b. Scout is being assisted in walking or carried	5	
3. The scouts escort the firefighters to the incident	5	

BROKEN ARM TREATMENT PROCEDURE	45 Max pts	
1. Kept the area above and below the injury still & stable.	5	
2. Checked for circulation prior to splinting	5	
3. Extended splints beyond the elbow and wrist.	5	
4. Minimized movement while applying splints by providing support above and below the fracture.	10	
5. Secure splints with bandages, neckerchiefs, or other wide strips of cloth. Tie at least one, placed above the injured area and one, placed below.	10	
6. Did not tie bandage directly over the injury itself.	5	
7. Checked for circulation after splinting.	5	
SLING PROCEDURE	20 Max pts	
1. Sling applied.	10	
2. Hand is equal to or a little higher than the elbow.	5	
3. Pig tail or similar method used to prevent elbow from sliding out of sling.	5	
SPRAINED ANKLE TREATMENT PROCEDURE	25 Max pts	
1. Did not remove boot or shoe.	15	
2. Ankle is wrapped for support (including boot or shoe)	10	
MOVING SCOUT (have patrol demonstrate (or explain) at least 3 methods to move victim)	30 Max pts	
1. Method #1 (list)	10	
2. Method #2 (list)	10	
3. Method #3 (list)	10	
Approved methods: <i>Single-Rescuer:</i> walking assist; one-person lift; firefighter carry; pack-strap carry <i>Multiple-Rescuer:</i> walking assist; four-handed seat; two-handed seat; chair carry (may be explained); hammock carry (may be explained); stretcher (may be explained)		
TOTAL POINTS	150
